BANGOR DAILY WHIG AND COURIER.

BY WHEELER & LYNDE. FRIDAY MORNING, MARCH 5, 1858. VOLUME XXIV.....NUMBER 210.

The following remedies are offered to the public as the best, most perfect, which medical science can afford. DR. CHABERTIO'S PILLS have been prepared with the utmost skill which the medical profession of this age possesses, and the effects show they have virtues which surpass any combination of medicines hitherto known. Other pills do more or less good; but this cures small ailments, obstinate complaints, so quick and so surely, as to prove an efficacy and a power to uproot disease beyond any thing which men have known before. By removing the obstructions of the internal organs and stimulating them into healthy action, they remove the fountain of life and vigor,—health courses anew through the body, and the sick man is well again. They are adapted to disease, and disease but little effect. This is the perfection of medicine. It is antagonistic to disease, and to man. Tender children may take them with impunity. If they are sick they will cure them, if they are well they will do them no harm.

Give them to some patient who has been prostrated form straighten, with strength again; see his long-lost appetite return; see his clammy features blossom into health. Give them to some sufferer whose foul blood has burst out in scrofula till his skin is covered with sores; who stands on crutches in agony! He has been drenched inside and out with every potion which ingenuity could suggest. Give him these PILLS, and mark the effect; see the scales fall from his body; see the new skin that has grown under them; see the late sufferer is clean. Give them to him, whose angry humors have planted rheumatism in his joints and bones; move him, and he screeches with pain; he too has been soaked through every nostrum of his body with ointments and salves; give him these PILLS to purify his blood; they may not cure him, for alas! there are cases which no mortal power can reach, but mark, he walks with crutches now, and now he walks alone; they have cured him. Give them to the lean, sour, haggard dyspeptic, whose gnawing stomach has long ago eaten every smile from his face and every muscle from his body. See his appetite return, and with it his health; see the new man! See her that was radiant with health and loveliness blasted, and, too surely withering away; worn out (exercise or mental anguish, or some lurking disease, has deranged the internal organs of digestion, assimilation or secretion, till they do their office ill). Her blood is vitiated, her health is gone. Give her these PILLS to stimulate the vital principle into renewed vigor, to cast out the obstructions, and infuse a new vitality into the blood. New look again,—the roses blossom on her cheek, and where lately SORROW sat joy bursts from every feature. See the sweet infant wasted with worms. Its wan, sickly features tell you without disguise, and painfully distinct, that they are eating its life away. Its pitiable moans and cries, and restless sleepings, tell the dreadful truth in language which every mother knows. Give it the PILLS in large doses to sweep these vile parasites from the body. Now turn again and see the ruddy bloom of childhood. Is it nothing to do these things? Nay, are they nothing marvel of this age? And yet they are done around you every day.

Have you the less serious symptoms of these distempers, they are the easier cured. Jaundice, Costiveness, Headache, Sick Headache, Heartburn, Foul Stomach, Nausea, Pain in the Bowels, Flatulency, Loss of Appetite, King's Evil, Neuralgia, Gout, and kindred complaints all arise from the derangements which these PILLS rapidly cure. Take them perseveringly, and under the counsel of a good Physician if you can; if not, take them judiciously, by such advice as we give you, and the distressing, dangerous diseases they cure, which afflict so many millions of the human race, are cast out like the devils of old—they must become in the brutes and in the sick. Price 25 cents per box—5 boxes for $1.

Through a trial of many years and through every nation of civilized men, AYER'S CHERRY PECTORAL has been found to afford more relief and to cure more cases of pulmonary disease than any other remedy known to mankind. Cases of apparently settled consumption have been cured by it, and thousands of sufferers who were deemed beyond the reach of human aid, have been restored to their friends and usefulness, to sound health and the enjoyments of life, by this all-powerful antidote to diseases of the lungs and throat. Here a cold had fastened on the lungs. The dry, hacking cough, the hectic eye, and the pale, thin features of him who was lately lusty and strong, whisper to all but him that his end is near. He tries every thing; but the disease is quickening at his vitals, and shows its fatal symptoms more and more over all his frame. He is taking the CHERRY PECTORAL now; it has stopped his cough and made his breathing easy; this sleep is sound at night; his appetite returns, and with it his strength. The dirt which pierced his side is broken. Scarcely any neighborhood can be found which has not some living trophy like this to shadow forth the virtues which have won for the CHERRY PECTORAL an imperishable renown. But the wonderful cures do not end here. It also accomplishes more by prevention than cure. The countless colds and coughs which it cures are the seed which would have ripened into a dreadful harvest of incurable diseases. Influenza, Croup, Bronchitis, Hoarseness, Pleurisy, Whooping Cough, and all irritations of the throat and lungs are easily cured by the CHERRY PECTORAL if taken in season. Every family should have it by them, and they will find it an invaluable protection from the insidious prowler which carries off the parent from many a flock, the darling lamb from many a home.

Authenticated evidence of these facts, with directions for the treatment of each complaint, may be found in Ayer's American Almanac, of which we publish three millions, and scatter them broadcast over the earth, in order that the sick every where may have, before them the information it contains. Druggists and dealers in medicine generally have them for distribution gratis, and also for sale these remedies, prepared by Dr. J. C. AYER, Practical and Analytical Chemist, Lowell, Mass.

Senator Douglas's Report—A Sophistical Argument Exploded.

It has been the fate too to force the Lecompton Constitution through Congress, by the lash of party discipline, and where that failed, by means of bribery and corruption—To afford some decent looking excuse, however, for the northern dough faces who intend to murder their constituents, a specious declaration is to be made that Congress recognizes the right of the people of Kansas to change or abolish the constitution at any time. The hunker organs have been continually alleging this power in the people as a reason why the Lecompton Constitution may be properly adopted. The State, they say, can come in under that pro slavery constitution, and immediately change it. That is to say—it is right for Congress to commit an outrage upon the people because the people will soon have an opportunity to amend the wrong. This is a specimen of democratic ethics. A more straightforward and honest course would seem to be, to commit no outrage at all—but simply to refer the question to the people and permit them to act with what kind of a Constitution they wish to be admitted.

But the plea in argument is false. The people will not have the legal right to change the Lecompton Constitution at any time. We have heretofore remarked that a declaration of Congress in this matter is of no effect and have requested the hunker organs to state just how the Kansas people are to change it at Constitution. Our neighbor of the Union has not seen fit to reply to that question—and we have not seen any attempt to answer it in any other administration paper. We ask now how it can be done—a direct, straightforward, comprehensive (if there can be any such) reply to the following extracts bearing upon the point, from Senator Douglas's recent minority report.

Mr Douglas says

The President can perceive no objection to Congress making a law providing for the admitting, having the Union which abrogates and nullifies an important provision of the Constitution, and excludes the right of the Legislature already elected to be the initiatory agent in carrying out by virtue of the force of the provision in the Constitution that such act shall be taken until *two thirds of the members of each House* concur and to every intent that case until after the year 1864. What right has Congress to intervene in a manner alien or even adverse to the provisions of a State Constitution and thereby compel the Legislature to desert their sworn oath of office to support the Constitution under which they hold their office.

It is worse than mockery to talk about the right of the Legislature, at *its very first session* to submit the question to the people and to make a law in the act of submission declaratory of right which can be exercised only in violation of the Constitution during the entire future, and especially it is understood that by forged returns and fraudulent votes, a majority of the members have to be declared elected in both branches of the Legislature who are determined to maintain the Lecompton Constitution and resist any and all efforts to change it. Must the people, prior to all that, in the event the Kansas is admitted under the Lecompton Constitution, now argument or proposition on the ground that the people of Kansas will have the opportunity of changing the Constitution by peaceful means through the instrumentality of the Legislature must in all probability prove deceptive and delusive. In the event that the fraud shall be consummated they only alternative will be submission or resistance.

If in the progress of the revolution, they should meet with determined resistance, civil war or unconditional submission must be the inevitable consequence. Do the history of this Lecompton Constitution the character and purpose of its manufacturers and the means employed to force it upon an unwilling people, furnish any assurance that after they have realized all their hopes by making the Constitution the fundamental law of the State, unalterable until after 1864 and it can only be by two thirds vote that it can be changed, that they come into power under it, permit it to be subverted and abrogated by a revolutionary movement, when they will have acquired the right under the Constitution of the United States to demand of the President the use of the Federal Army, to put down the insurrection, and protect the State against domestic violence? When this demand shall be made upon the President by the Legislature elected at the very first session or by the Governor when the Legislature cannot be convened, will he not consider himself bound by his official oath, and in obedience to the Constitution of the United States to use the Federal troops to protect the State against domestic violence, by putting down the revolution and suppressing insurrection and maintaining the authority of the Constitution until lawfully changed in the manner prescribed in the instrument?

Suppose the people of Kansas should attempt to change the Constitution in a mode and at a time different from that authorized in the instrument, and should proceed so far as to adopt a new Constitution, and set up a State Government under it by an overwhelming majority in antagonism to the Constitution and State Government with which Kansas was admitted into the Union, which of the State Governments would the President feel bound to recognise, and protect against domestic violence, when applied to in the manner provided in the Federal Constitution?

It is important that this question should be determined in order that the people of Kansas may know how the rule is to exercise that great indefeasible right which the President speaks when he says "he can make and unmake Constitutions at pleasure."

LOCAL AND MAINE NEWS

THE REPUBLICAN CAUCUS.—The Caucus last evening was large and animated. The best spirit prevailed, and Hon Hollis Bowman was unanimously renominated, as will be seen by the official report as follows.

The Republicans of Bangor met at the City Hall on Thursday evening, March 4th, according to call.

Chose Isaiah Stetson, Chairman, and O H Ingalls Secretary.

Chose G K Miller, John Conant and M. Schwartz, a committee to sort and count the votes for a candidate for Mayor. They reported the whole number of votes to be 468

Necessary for a choice, 235

Hollis Bowman had 468

and was declared unanimously nominated.

Mr Bowman, in a few appropriate remarks accepted the nomination.

The following preamble and resolve were then offered, and passed by nearly a unanimous vote.

Whereas, By an Act of the Legislature approved Feb 22, 1858 it is proposed to amend the City Charter so that Aldermen and Councilmen shall not be elected to any subordinate office, therefore,

Resolved, That as the sense of this meeting it is expedient so to amend said Charter.

Adjourned.

PERSONAL.—Ex Governor Hubbard, and Chief Justice Tenney are now in town, and stopping at the Bangor House. Associate Justice May is also in town, at a private house.

Two shocks of an earthquake were felt in Portland on Wednesday—the first at 1 P. M., the second at a quarter before 2.

SUPREME COURT. The evidence in the arson case—State vs. Patrick Murphy, was all in at 4 o'clock yesterday afternoon, (Thursday.) The counsel on both sides waived the closing arguments, and the case was given to the jury by Judge Hathaway, in a charge of about an hour or an hour and a half in length. The jury after a short deliberation, returned a verdict, of *not guilty*.

The following additional law decision was announced yesterday.

Gorham L Boynton et al. vs. John H Wilson. Exceptions overruled. Judgment on the verdict for Plff. Peters for Plffs. Ingersoll for Dft.

DRAMATIC READINGS.—Next week, as we understand, Mr B. Adams intends favoring our citizens with one or more of his Dramatic Readings, and judging from the encomiums bestowed upon his performances and capabilities by the Portland papers, our citizens will have one of the most agreeable literary entertainments of the season. We trust that the patronage which a really meritorious entertainment deserves will be liberally bestowed.

THE CITIZENS CALL.—By request, we omit the name of Mr Bradford Harlow from the signatures to the Citizens Call. It was signed under a misapprehension of the objects of the meeting.

Two Hutchinsons are singing in Portland.

FIRE AT BETHEL HILL.—The sash, door and blind factory of Messrs Foster & Holt was burned on Tuesday morning at 1 o'clock. Loss including engine tools, manufactured lumber, &c $4000, insured in the York Mutual office for $1700. The origin of the fire is unknown.

TOWN ELECTIONS.—In *Bath* the union Republican ticket is elected. The hunkers were unable to present a ticket.

In *Norway* Republican ticket elected by 57 to 78 majority on all front officers.

Buckfield elects Republican officers by an average majority of 50. At no previous Spring election have the Republicans had more than 10 majority.

Harrison, Republican by a tremendous majority.

Bethel all Republicans.

West Gloucester, ditto.

In Gray, the Republicans elected as many officers as their opponents.

Standish. The hunkers succeeded, as usual, but had a severe contest for it.

In *Vermont* A Republican was elected without a show of opposition.

Fryeburg Republican.

Corinth and *Dennmark*, Democrats elected.

Brownfield Republican majority of board.

IMPORTANT ARREST. On Saturday evening last, Assistant Marshal Dalrymple of Salem arrested in that city a young man named Chas Hurley, and lodged him in jail on suspicion of being one of the parties who attempted to murder Judge Porter of Portland, about a year ago.

COMPLETION OF THE GRAND TRUNK SECURED.—By the following paragraph from the speech of the Governor General of Canada, delivered to Parliament at the opening of the session at Toronto on Friday last, it would seem that he considers the means for the completion of that great enterprise, secured. The Governor General says:

"As his province has already gone to the utmost limit of pecuniary aid to the Grand Trunk Railway Company, it affords me pleasure to state my confident expectation of the promise sufficient to secure the advantages promised by the completion of its works and I doubt not that the community at large are fully sensible of the benefits derived from this great and important undertaking.

The Manchester, (N H) American says the story that a clue has been found for the unravelment of the Parker murder mystery in that place, some years ago, is one of the unfounded reports which are constantly started in regard to that affair.

ANOTHER PROMINENT NEW HAMPSHIRE DEMOCRAT DESERTING THE ADMINISTRATION.—At a meeting of the Republicans of Lancaster, Gen Canning Wentworth, son of ex Governor Williams, and late County Solicitor, renounced Buchanan, and joined himself to the Republican party.

Gov Walker has sent a letter to the Indianapolis meeting, in which he expresses his opposition to the Administration measures as strongly as ever. He says, the pledge he gave "shall be redeemed by him, if necessary, to the latest hour of his existence, even to the shedding of the last drop of his blood."

California Items.

The California Chronicle says, "A lively interest is felt throughout the State in relation to the phase which the Kansas difficulties had assumed at the last advices. The course pursued by Douglas and Walker meets the approval of a large majority of the people of the State. In fact, except those sheets directly influenced by federal patronage, none have been found to sustain the policy of the President.' The Bulletin remarks that the Democratic party is in a "peck of troubles about the Kansas question.

So prevalent is the mania for sudden fortunes, that a San Francisco correspondent of a Sacramento paper writes that a leading merchant firm in that city has bought up all the strychnine on speculation.

Saltpetre has been discovered in the alkaline ponds and the earth at the head waters of the Pajaro river, which forms the boundaries of Santa Clara, Santa Cruz and Monterey counties. This discovery may be regarded of great value to the military resources of the United States on the Pacific, as the country possesses immense mines of sulphur.

An actor calling himself S P Everett, but whose real name is P H Cosland, a Philadelphian by birth, has been arrested for attempting to burn the town of Yreka through the arrest a great many things came to light, showing that Everett's intentions were not only to burn, but to rob and murder. On examining his trunk, a phial of chloroform was found.—This it seems he wanted to use upon a woman of questionable character, whom he knew to have money. He had made arrangements that his companion should, by some pretext, get into the room of the woman, administer the chloroform to her, and as soon as she was insensible from the effects of it, Everett would run into the room, murder and then rob her. It was also his intention to destroy the life of a man, with whom he had been quarreling some time previous, by blowing his room up with an "infernal machine," (so called) and he was only deterred from so doing by his companion, who was a friend of the threatened individual. It is the general impression that Everett had more parties with him.

A mammoth aqueduct is about to be built at Jenny Lind diggings, Calaveras county, which will be five eighths of a mile long and one hundred and five feet high. It will be suspended on cables resting on seven towers, the highest of which will be one hundred and fifty feet high, and its estimated cost is $20,000.

The Basque—Shall it go out of Fashion?

From the Springfield Republican

The dressmakers say that the basque is passing out of date—that it is not so much worn now as formerly, and that it will soon be discarded in the higher circles. We seize the first moment to enter our protest against this movement. We gave our heart to the basque years ago! We made the surrender publicly, in these columns. We recognized the moral fitness of things in which the idea of a basque finds its base. The trunk and chest of a woman have a distinct honor, and form a peculiar office, in the economy of her existence. They contain her heart, her breath, her life, and the fountains of other life. It is therefore that this portion of the frame be dressed by itself, as it were—that it be honored as the seat and centre of life. The skirt is another thing entirely. The limbs are used only for the purpose of locomotion and they are simply to be ignored by graceful folds of material from the waist.

Now we protest against shrouding one of all distinctions. There is just as much propriety in attaching the latter to the neck of the dress as there is in fastening the skirt to the waist, and the whole idea of the old fashioned gown can only be carried out by making the bonnet and shoes a part of it. If we are to lose the basque let us go the whole figure, fasten every thing together, jump into the result and see how pretty we shall look. The gentlemen join our ladies and revive the earlier patterns of breeching which filled all the offices of clothing between the neck and knees. But such an operation as this would be impossible. The coat is a sacred vestment. It is to a man what a basque should be to a woman!

Perhaps we shall be accused of meddling with that which does not particularly concern us. Do we have to pay for the dresses? Don't we have to sit with them evenings? Down every corsage of wife or sister, or cousin or sweetheart embrace is a great question of basques or no basques? Does not the abandonment of the basque involve the abandonment of all those pleasant variations of dress procurable by the simple change of skirts? In a word, is not one of our business? For whom are the dresses made we should like to know? Whose admiration are they intended to excite? What do ladies wear handsome dresses for except for the purpose of pleasing the brethren? We therefore take this early occasion to declare that we shall hold ourselves bound to admire no woman who discards the basque, and adopts the idea of the mental bag. We will not place our arms around the waist of any woman who may happen to be in danger of falling unless she wears a basque. We are determined to frown down this ill timed change with all the power of a severely outraged coquetry. So, dressmakers, beware!

THE REVOLUTION GOING ON.—The election of Ex Governor Grimes of Iowa to the Senate, increases the number of Republican Senators to twenty one. It is steadily does the Revolution go on. New England with a single exception, stands in the Senate a solid phalanx for Liberty, and that exception we trust, will soon cease. Mr Allen's term expires with the Congress, and the Legislature of Rhode Island, to be elected in the spring must choose his successor. Let us hope that the freemen of that State will put aside all local jealousies, merit personal considerations and take care to return men pledged to the election of a Republican Senator—to make New England a unit on the great question of the age and the country. The Northwest is gradually falling into line—Iowa and Wisconsin have already taken their places, the changes effected in Michigan and Illinois give promise of a speedy and complete renovation, and the Republicans of Indiana will doubtless soon have an opportunity of securing for that State in the Senate its proper position. Pennsylvania and New Jersey will be the last to yield to the demands of freedom, but yield they must—so that in the course of a few years, the Senate will have ceased to be the bulwark of slaveholding usurpation.—*National Era.*

THE NEW YORK HERALD AND THE ADMINISTRATION.—*Washington, March 1*, (Tribune correspondence.) It is well understood here that the most intimate circle of the President's friends, that immediately on the adjournment of Congress, Mr James Gordon Bennet will receive his commission as United States Minister to Austria. This will be the simple fulfilment of one of the conditions of which the New York Herald gives his support to the administration.

One of the richest men in this country, it is said, has now on deposit in the Boston Banks one million eight hundred thousand dollars and refuses to loan on real estate having a prejudice against this class of securities for some decisions heretofore in the Supreme Court, adverse to his interest.

A gentleman, who was formerly one of the proprietors, of a mercantile house in Davenport, Iowa, which lately failed, is now sawing wood for a living.

LEGISLATURE OF MAINE.

TUESDAY, March 2.

SENATE. Order from the House, raising a Joint Select Committee to inquire into the expediency of abolishing Trustees of Insane Hospital, Reform School, State Prison &c, was passed in concurrence, and Messrs Chapman, Goddard, and Sargent joined on the part of the Senate.

Mr Strickfield presented the petition of A W Hunt and others, for measures to promote the sale and settlement of the public lands. Referred.

Bill to set off Greenbush from Hancock county, to Penobscot county, was read a second time, and on motion of Mr Wason was recommitted.

HOUSE. The Clerk announced the absence of the Speaker.

On motion of Mr Tapley of Saco, Wm T Johnson, Esq., of Augusta, was appointed Speaker pro tem.

The question returned upon the amendment to the Kansas and Slavery Resolves.

The yeas and nays were then called and resulted in the negative—yeas 26, nays 59.

Mr Patten of Fort Fairfield rose to explain in relation to his vote yesterday on the amendment proposed to the Kansas resolves by the gentleman from Winn. He said that he was out of the House at the time the matter was under consideration. He had voted under misapprehension.—He had voted *yea* he should have voted *no*. He held that there is no human constitution this side of Holy Writ, that should influence him not to support the downtrodden freemen of Kansas.

Mr Woodman of Bucksport asked to be excused from voting, and said without an explanation, any vote either way would place him in a false position. He did not conceive that the proposed amendment changed the tenor of the resolution. He conceived that by virtue of the bill of rights, the people of Kansas had a right to resist in every way the attempt to *force* a Constitution upon them. By voting in the negative, he might be understood as admitting a principle which he did not conceive to be applicable to the matter in issue. By voting in the affirmative, he voted with but a small minority of the party to which he belonged, and his action might be misconceived. Having made this explanation, he withdrew his request to be excused, and voted yea.

Mr Tapley said that he had voted to reject the amendment in order to move a reconsideration, and he then made that motion and now asked to assign to morrow for the consideration of the motion, and the motion prevailed.

Passed to be enacted.—An act additional to several acts establishing the County of Piscataquis, an act to incorporate the Cornyfield Boom Company, an act to incorporate the Hancock Agricultural Society, an act to protect the inhabitants of Long Island from the depredations of hunters.

The New York Examiner sums up the results of the revivals, as contained from its correspondence and exchanges for the last five weeks, as over twenty thousand conversions, which are exclusive of the large number not specified, and other large numbers not publicly mentioned at all.

An immense tooth, perfect in form, hard and solid as a rock, and as large as a man's fist, was found a few days since in a marl pit near Pemberton, Burlington County, New Jersey. No bones, save the skull, part of a tusk, and other remains were found in the same vicinity. The skull measured two feet between the eyes and the tusk was over two feet in length. They are supposed to be the remains of a mastodon.

SANTA ANNA GOING TO MEXICO.—The Havana correspondent of the Times writes that Santa Anna was expected shortly at Havana, whence he would sail for Mexico in a Spanish war steamer, to assume for the last time the Presidency of the Republic. Spain will receive from Mexico the full amount of her claims under a new treaty the draft of which has been drawn up at Havana.

IMPORTANT RAILROAD DECISION.—The Supreme Court of New York in the second district has rendered the important decision that the rolling stock of a railroad is in the nature of a fixture and a mortgage of it need not be filed like a mortgage of personal property.—This we believe is a new construction and if sustained by the Court of Appeals, will have important consequences.

The Boston Post has ascertained that one of the "heaviest firms" in Union Street, in that city, does not weigh two hundred pounds.

A considerable reduction has taken place in freight on the Great Western Railway for grain, amounting to eight cents per bushel.

IMPORTANT TO YOUNG FARMERS.—Effectual destruction of weeds—making a living widow.

Brahm Democracy.

If the man we elect he votes
Or if the vote it links the cast
They know not well Protean cause
I vote a dollar and beat at least.

Missouri State to me is near
The truth and false God are I owe no
They unclean loaves to me appear,
And oaths to me is shame and fain

They reckon ill who vote me so
When my they fly I am a bird;
I am a counter and the count
All office held with me I tune

The black South prowls in my a sode,
And plans in vain the swindled North;
But those weak kinds of birds
Find me, and drag a hell's fiercest brush

A Substitute for Burning Fluid!

Brilliant! Economical! Safe!

THE

KEROSENE LAMP,

For the Million, for Burning

Kerosene, or Coal Oil.

THIS is, beyond a doubt the best Lamp in the market. It gives a more brilliant and uniform light than Sperm Oil, Candles or Burning Fluid. Compared with Fluid at 56 cts per gallon, the cost is not *one third* for the same amount of light.

One gallon of this Oil will burn *fifty* evenings, four hours each, giving a light equal to *six* Fluid burners (either wick or gas generator) costing on an average only two cents an evening.

The Oil used is not explosive, gives no unpleasant smell while burning and is not affected by cold.

N B The Burners of the Lamp, at a slight expense can be attached to all the ordinary Solar, Fluid and Rosin Oil Lamps at short notice.

A supply of the above Lamps and Oil just received and for sale by

TELEGRAPHIC

TO THE DAILY WHIG AND COURIER

CONGRESSIONAL.

WASHINGTON, 4th.

Senate. Mr. Stuart, of Mich., reported adversely the bill to amend the act of March 3d, 1855, granting bounty lands to certain officers, soldiers, &c.

The Senate at one o'clock took up the special assignment, "The Kansas Bill."

Mr. Hammond, of S C, contended that the Lecompton constitution embodied the will of the people of Kansas, for the convention was an assemblage of the people, in their highest sovereignty.

Mr Hammond said he understood the Senator from Ill. to have declared that he was opposed to the Lecompton constitution only on one point, namely, because he was not satisfied that it embodied the will of the people of Kansas.

Mr Douglas replied that not exactly his position. He thought there were other irregularities, but would waive these if he could be assured that the constitution embodied the will of the people of Kansas.

Mr Hammond had understood that Mr D. to state all the other irregularities could be cured by Congress, and that that was the sole ground of difference between them. But the question is, how can the will of the people of Kansas be ascertained? He thought Mr D. in error in saying that the Lecompton convention was the creature of the territorial Legislature, and he thought that from that error he probably erred in his subsequent remarks on that subject. How was it possible that the convention could be the creature of the territorial Legislature. The convention was an assemblage of people in their highest sovereign capacity, about to perform the highest act of sovereignty. The territorial Legislature was a mere provisional government, a petty corporation appointed and paid by Congress, without a particle of sovereign power, and therefore could not interfere with sovereignty, although that sovereignty was still in chains. Congress could not interfere with the convention. It could not confer upon the Legislature power to interfere with it, for Congress is not sovereign. It has no power to act outside of the limitation of the Constitution.—no right to carry into effect the supreme will of the people.

Mr. Doolittle, of Wis, alluded to threats made in certain quarters, that unless Kansas be admitted under the Lecompton constitution the Union will be dissolved. Did he believe such a portentous calamity could follow the rejection of the Lecompton constitution, or that it was at all likely, he confessed it would be entitled to great weight. But he did not believe that all the politicians in Washington could save the Union. Referring to the threats made, that had Fremont been elected he would never have been inaugurated, he said that the Republicans would stand by the Union, however was elected President. He then gave a glowing eulogy on the Union. Without concluding their consideration of the subject the Senate adj. until Monday.

House.—The Speaker announced the first business to be Mr. Hoard's resolution asking for a select committee to examine into charges that the action of members had been influenced by the bestowal, or withholding of executive patronage. The question pending being, "Shall the resolution be entertained as a question of privilege?"

Mr. Leard of N. Y. proposed an amendment charging, on his own authority and common report, the President with endeavoring to control the action of the House on the Lecompton Constitution by executive patronage.

Mr. Humphrey Marshal, of Ky., suggested postponement of the subject one week.

Mr. Barnett objected to postponement for a month. It was due to Mr. Burns, the member impleaded, that he should have a hearing now. The charge was base and contemptible, and intended to injure the Democratic party, as well as Mr. Burns.

Mr. Hoard said he had twice disclaimed any personal hostility against Mr. Burns.

Mr. Burns of Ohio sent up to the Speaker a written statement, charging that Mr. Hoard intended making a false and slanderous record against him, and saying he shall hereafter treat Mr. Hoard with the slight with the contempt his merit in the estimation of honorable men, who denied having any collusion with the President or Cabinet concerning his vote, meriting that nothing of the kind occurred.

Mr. Hoard again disclaimed any party spirit or intention to wound the feelings of any. When he introduced the proposition he did not suppose there would be opposition to it. He contended it was a legitimate subject of inquiry. It is a common rumor that the executive is now endeavoring to control the action of the House, as he has heretofore endeavored to do. It was rumored that test to an investigation of Mr. Wolcott's case. He was not a partisan of a victim, but an offender. He was into most that Mr. Morris of Ill., twice closed his door to make affirmation of the truth of the statement Mr. Burns had stated, relative to his vote on the reference of the Lecompton message to the Committee on Territories. Mr. Smith of Ill., and Morris of Ill., had both informed him (Hoard) that Mr Burns was previously relied on as anti-Lecompton.

Mr. Clair of Mo., repeated a conversation with Mr Morris, in corroboration of Mr Hoard.

Mr Nichols of Ohio, said the allegation was false. Mr Burns never expected, as charged, appointment to the Marshalship of Ohio. All members knew, without investigation, that patronage and power were brought to bear in favor of administration measures. No member had stated, on his own responsibility, that there was any reason for the charge. He then moved to lay the subject on the table, including a resolution from Mr Burns, which Hoard had accepted, as this substitute provided for a committee to inquire whether there had been any collusion between Burns and the President, and whether any improper attempts had been made, directly or indirectly, to influence the action of any member of the House on any measure on which the House had acted, or had under consideration, with power to send for persons and papers.

The motion was carried—yeas 92, nays 80.

Mr Quitman of Miss., called up his bill authorizing the organization of a regiment of mounted volunteers, for defence of the frontier of Texas, and also authorizing the President, on occasion may require, to call out four additional regiments of volunteers.

Pending the consideration of this bill, the House adjourned.

From the Plains.

ST. LOUIS, 4th.

Jas Westcott, Mo., correspondent of the Democrat says that Mr. Kitchen, who has arrived here from New Mexico, brings intelligence of a fight between the Pawnee and Arapahoe Indians on Pawnee Fork, in which 10 of the former were killed, and many wounded.

Mr. Kitchen met a large number of Camanches at Kiowas, who expressed the best feelings for the whites, and stated that, so far as they were concerned, the army and other whites should not be molested by the Indians.

All was quiet in New Mexico.

Coroner's Inquest.

NEW HAVEN, 4.

The coroner's jury of investigation into the facts in relation to the death of Wm Hides, German, shot on the 9th of February in an affray in some students, gave their verdict today. "It does not implicate any person in particular, but censures those who declined to testify, by which the jury were unable to obtain all the facts they wanted."

P. K.

MESSRS. PERRY DAVIS & SON—Having witnessed the beneficial effects of your celebrated Pain Killer in several cases of cholera morbus, within a few years past, I most cheerfully recommend its use, as a safe and effectual remedy. About four years ago I used it in a case of cholera, and it proved an effectual and speedy cure, and in one case of catarrh; and some time in December last, six of my children were taken down with scarlet fever or canker rash,—my only medicine was Pain Killer and Castor Oil—the Pain Killer operating to a charm in cooling the canker and throwing out the rash, so that in about five weeks my family were entirely recovered, and I recommend the same as a safe, and sure cure for the very dangerous disease of scarlet fever, by giving one teaspoonful three times a day every other day, and every other day Castor Oil.

CORNELIUS G. VANDENBURG,
Saratoga Springs.

PERRY DAVIS' VEGETABLE PAIN KILLER, after a thorough trial by innumerable living witnesses, has proved itself to be *THE MEDICINE OF THE AGE*. Although there have been medical preparations before the public since its first introduction, and large amounts expended in their introduction, the Pain Killer has continued to steadily advance in the estimation of the world, as the best family medicine ever introduced.

In the year of our Lord one thousand eight hundred and fifty-eight.

AN ACT to amend the City Charter of Bangor so that Aldermen and Councillmen shall not hold subordinate offices.

Be it enacted by the Senate and House of Representatives, in Legislature assembled, as follows:

SECTION 1.—No person elected to the office of Alderman or Common Councilman of the City of Bangor, and who has accepted said office, shall hold any other office to which any pay is attached or from which any profit is derived, in or under the administration of the government of said city, or in the management of the affairs or interests thereof, during the time for which he is so elected; excepting that one Street Engineer may be taken from the Board of Aldermen and one from the Common Council, as required by an ordinance of said City.

SECTION 2.—This act shall not take effect or be in force till it is accepted by a majority of the legal voters of said city, voting thereon in the several wards, at meetings called for that purpose in the usual manner that meetings are called by the Mayor and Aldermen of said city; and the votes thereon shall be returned to and counted and declared by the Mayor and Aldermen.

SECTION 3.—This act shall take effect when approved by the Governor so far as to allow its immediate submission to the people of Bangor, and shall have full effect when accepted as herein provided. (Approved Feb'y 22, 1858.)

Chesapeake,

Capt SYDNEY CROWELL, will run regularly between *New York* and *Portland*, as follows:

LEAVE Brown's Wharf, Portland, every SATURDAY, at 4 P. M., and returning leaves New York, Pier 12 N. R., every TUESDAY, at the same hour.

This vessel has just been fitted up with fine accommodations for passengers, making this the most speedy, safe and comfortable route for travelers between New York and Maine.

PASSAGE $6,50—including Fare and State Room.

Goods forwarded by this line to, and from Montreal, Quebec, Bangor, Bath, Augusta, Eastport and St. John. Also, connects with steamers for Baltimore. Goods taken through with despatch, at the cheapest rates.

For freight or passage apply to

California Steamers,

Carrying the United States Mail

5th and 20th of each month.

Through Tickets, including transit of the Isthmus, via. Panama R. R.

By order of the Postmaster General, the United States Mail Steamers will hereafter be despatched from New York direct to Aspinwall, on the 5th and 20th of each month.

Passengers are landed at the Railroad Depot, Aspinwall, and conveyed across to the Pacific Steamers *without any extra expense*. This is the only line giving entire Through Tickets, including *meals*, on the Isthmus.

Transit made in *four hours entirely by daylight*, thus avoiding the great exposure by night in open boats to fever and ague, and 200 miles of dangerous lake and river navigation over rocks and shoals.

Arrangements have now been completed so that the regular U. S. Pacific Mail Steamer will leave Panama for San Francisco immediately on arrival of the Atlantic Mails and passengers, thus securing passengers by the Mail Line *a sure and short* passage without any detention on the Isthmus.

If Tickets must be signed by one of the Company's Agents before they will be recognized by the Agents at Panama, and tickets thus signed can be obtained of the *only authorized Agent* for the Atlantic and Pacific Mail Steamship Companies, in this city.

Portland to Boston.

Summer Arrangement.

The Steamers, LEWISTON, Capt. Geo. Knight and the FOREST CITY, Capt. F. A. Prince will run as follows:

Leave Atlantic Wharf, Portland, every Monday, Tuesday, Wednesday, Thursday, and Friday, at 7 o'clock P. M., and Central Wharf, Boston, every Monday, Tuesday, Wednesday, Thursday and Friday, at 6 o'clock P. M.

Fare in Cabin,	$1,25
Fare on Deck,	1,00

Freight taken as usual.

Each Boat is furnished with a large number of State Rooms, for the accommodation of Ladies and families, and travelers are reminded that by taking this Line much saving of time and expense will be made, and that the inconvenience of arriving in Boston at late hours of the night will also be avoided.

The Boats arrive in season for the passengers to take the earliest trains out of the city.

The Company are not responsible for baggage to any amount exceeding $50 in value, and that personal, unless notice is given, and paid for at the rate of one passenger for every $500 additional value.

LINCOLN'S WATER PROOF BLACKING,

AND LEATHER PRESERVATIVE.

Keep your Feet dry, and you will seldom need a Physician!

It not a truth that when the feet are often wet, it is one of the greatest causes of colds and consumption? It is a truth that when leather is often wet and dried, it soon becomes hard, stiff, and crack; but when it is water-proof this is remedied. By the application of this preservative, it remains soft and entirely impervious to water.

After being engaged for 25 years in the manufacture of Leather in all its branches, and being often troubled with wet feet myself, I was led to experimenting on different compositions, and found it easy to make it water-proof, but at the same time extremely injurious to the leather. At last by a chemical process, I discovered a preparation which perfectly harmonizes with the astringent properties with which leather is tanned. It will not only make leather water-proof, but it likewise softens the leather, and it will

Positively wear twice as long.

I have now used it for three years, and a large part of that time have worked in a wet Tannery, without boots constantly in water, and have not had my feet wet during that time. I can therefore in a confidence, recommend it to the public as the best article in the market.

A Homestead for $10.

THIRD DIVISION.

$310,000 WORTH OF FARMS AND Building Lots, in the Gold Region of Culpepper County, Va., to be divided among 10,20 subscribers, on the 7th of December, 1857. Subscriptions only *ten dollars down*, or fifteen dollars, one half down the rest on the delivery of the deed.—Every subscriber will get a building Lot or a Farm, ranging in value, from $310 to $2,000. These FARMS and LOTS are sold so cheap to induce settlements, a sufficient number being reserved, the increase in the value of which will compensate for the apparent low price now asked. Upwards of 1300 Lots have already sold, and a company of settlers, called the "*Happy Homes Pioneer Association*," is now forming, and will soon commence a settlement. Ample security will be given for the faithful performance of contracts and promises.

Nearly 45,000 acres of land, in different parts of Virginia, now at command, and will be sold to settlers at from $1 up to $800 per acre.—*Unquestionable titles will in all cases be given.*

WOOD CUTTERS, COOPERS, FARMERS, &c., are wanted; and

$500 Agents to obtain subscribers, to whom the most liberal inducements will be given. Some Agents write that they are making $200 per month. For full particulars, subscriptions, agencies, &c., apply to E. BAUDER,

DR. SANFORD'S

INVIGORATOR, OR LIVER REMEDY!

IS AN ARTICLE THAT EVERY BODY needs who is not in a perfect state of health, for the *Liver* is second only to the heart in our human economy, and when that is deranged the whole vital machinery runs wrong. To find a medicine peculiarly adapted to this disease has been the study of one of the proprietors, in a large and extensive practice for the past twenty years, and the result of his experiment is this *Invigorator*, as a never failing remedy where mediocre has any power to help. Ask Liver Remedy it has no equal, and all testify who use it.

A lady, writing from Brooklyn, says, "Would that I could express in this short letter the value your Invigorator has been to me in raising a large family of children, for it has never failed to relieve all affections of the stomach, bowels, or attacks of worms. If mothers once had this remedy placed within their reach, and were taught how to use it, a fearful and unlold amount of agony might be saved."

One of our prominent bankers says, "Five or six years ago, I found myself running down with a liver difficulty, resorting to your Invigorator, was greatly relieved, and continuing for a season, was entirely restored."

A clergyman called at our office the other day and said he had given a poor woman a bottle, who was suffering very badly from Liver Complaint, and before she had taken the whole of it she was at work earning bread for her family.

A gentleman, recently from the West, says, whilst at Chicago he was attacked with a slow, lingering fever, that baffled the skill of physicians, but the Invigorator cured him in a few days.

One of our city merchants said, while on a visit to Troy, a few days since, he was attacked with bowel and stomach disorders, so as to confine him to his room. He sent to the drug store for a bottle of Invigorator, took one dose, which relieved him so that he was able to attend his business.

An Accountant, whose business compels him to write most of the time, says, he became so weak, as to be unable at times to hold his pen, while at others sleep would overpower him, but the Invigorator cured him.

A gentleman from Brooklyn called on us a week or two since, looking but the shadow of a man, with sallow yellow, pale and sunken face. He had been for a long time suffering from Jaundice and Dyspepsia, and unable to attend to his business. We saw him again to-day a changed man, and to use his expression, he had taken the bottom of the first bottle, and far her adds, "it saved my life, for I was fast going to a consumptive's grave."

Among the hundreds of Liver Remedies now offered to the public, there are none we can so fully recommend as Dr. Sanford's Invigorator or Liver Remedy, so generally known throughout the Union. Its reputation is truly a Liver Invigorator, producing the most happy results, for all who use it. Almost innumerable certificates have been given of the great virtues of this medicine by those of the highest standing in society, and it is without doubt the best article of the kind before the public.

NEW AND IMPORTANT DISCOVERY IN THE SCIENCE OF MEDICINE: TRIESEMAR.—None are genuine unless the engravings of the Seals of the Patent Office of England, the Seals of the Ecole de Pharmacie de Paris, and the Imperial College of Vienna, are fixed upon each wrapper, and around each case.

Sold by Dr. H. A. BARLOW—Member of the Imperial College of Vienna, and Royal College of Surgeons, London, who may be personally consulted, at his residence, No. 157 Prince Street, (few blocks West of Broadway) New York, from 11 o'clock in the morning till 2, and from 4 o clock till 8 in the evening, (Sundays excepted.)

TRIESEMAR No. 1—Is the remedy of general and local debility, loss of virile power, premature decay, and all the distressing consequences arising from early abuse, &c.; all physical impediments vanish like magic before its influence, thus rendering it as use invaluable to those entering the marriage state.

TRIESEMAR No. 2—Entirely eradicates all traces of those disorders which copaiva and cubebs have so long been thought an antidote for to the ruin of the health of a vast portion of the population.

TRIESEMAR No 3—Is the great European remedy for that class of disorders which, unfortunately, the English physician treats with mercury to the inevitable destruction of the patient's constitution, and which all the Sarsaparilla in the world cannot remove.

TRIESEMAR Nos. 1, 2 and 3—are prepared in the form of a lozenge, devoid of taste or smell, and can be carried in the waistcoat pocket. *So in no cases and divided in separate doses, as administered* by Valpeau, Lallemand, Roux, Ricord, &c. Price $2 each, or four cases in one for $5, which saves $3; and in 27 cases, whereby there is a saving of $6.

Special arrangements have been made with the various Expresses, the nine-dollar cases of the Triesemar, and the larger sizes, will be forwarded by Dr Barrow, carriage paid, immediately on receiving a remittance to any part of the world, securely packed, and addressed, according to the instructions of the writer, thus securing to the public genuine European preparations, and effectually protecting them from spurious and pernicious imitations. The three dollar cases sent as usual, but not free of carriage.

THE LUXURY AND PROFIT OF HONEY MAKING.

"Torrey's Bee Hive.

THE subscriber, having purchased the right of making and selling *Davis' Patent Bee Hive* for the Counties of Penobscot, Lincoln and Sagadahoc, which has been received with so much favor, and taken the first premiums, wherever exhibited, has introduced an improvement into the Bee Hive and is now prepared to make the same in connection with the Davis Platform, and to sell rights to towns and individuals.

This Bee Hive, thus improved, is admitted by persons acquainted with the honey-making business to be superior to everything yet invented for the purpose. It covers all the requisitions for the profitable management of the apiary, by providing for ventilation at all seasons of the year—room for the exercise and feed of the bees—convenience for the removal of excrement, for the proper separation of the swarms, and generally for the health and comfort of the workers.

The boxes used in this Hive for storing honey, are the best adapted in their size, for the market, holding from three to six pounds each.

The subscriber wishes to purchase one hundred swarms of bees in exchange for bee hives and individual rights.

THE changes of weather and season, with the changes of use and feed, have a very great effect upon the blood and sinuous fluids of Horses. At these changes they require an assistant to nature to throw off any disorder of the fluids of the body that may have been imbibed, and which, if not attended to, will result in the Yellow Water, Heaves, Colds, &c., all of which will be prevented by giving one or two of these Powders, Spring or Fall, and will at any time cure where any symptoms of disease appear, if used in time. They purify the blood, remove all inflammation and fever, loosen the skin, clean the water, and invigorate the whole body, enabling the animal to do more work with the same feed.

The action of these powders is directly upon the secretive glands, and therefore all diseases arising from or producing a bad state of the blood are speedily cured by them. Also, colds and surfeit or any kind are cured by one or two of these powders, if given according to directions.

In all cases of Horse Distemper, they should be given at the first symptom, to prevent fevers, and in the last stage, to carry off all humors of the blood, and to restore a healthy action to the glands of the throat.

We, the subscribers, hereby certify that we have used *Miller's Condition Powders*, for Horses and Colts, prepared by *T. C. Butler*, Druggist, Derby Line, Vt., and think them the best Powders for Horses and Colts that are out of condition, that we have ever used. We would recommend them to Farmers, Stage Companies, Stablemen, and others, dealing in or keeping Horses and Colts.

They will clean the Worms and Botts out of a Horse's stomach, and give him a good appetite for his food, and a good coat.

They are also good for the Heaves, and for a Cough, and they have been highly recommended for the cure of Worms and Bots in Colts.

They clean the water, loosen the skin, and invigorate the whole body, enabling the horse to do more work with the same feed. (signed by)

Timothy Winn—Mr. Butler would say that Mr. Winn is the proprietor of the Canada House and Stage office on Stanstead, Plain, and was for many years proprietor of the Derby Line House, Derby Line, Vt., where he raised the black colt called the Know-Nothing, which was sold at $1800 at four years old.

Kendall Lee—Mr. Lee is one of the most extensive farmers in Eastern Canada, and has raised some very valuable horses, which he has sold at high prices. This gentleman raised and sold the bay horse called Charley, which was afterwards sold for $1000 and taken to France. He also raised and sold the horse called Bony, which has been taken to California, and is held at $16,000. Mr. Lee keeps from 40 to 50 horses and colts, and makes great use of Miller's Condition Powders.

Wm. B. Hoyt—keeps the Lyndon House and Livery Stable at Lyndon, Vt.

H. Heath—drives from Lyndon to St. Johnsbury.

A. B. Fairbanks—St. Johnsbury, Vt., dealer in horses.

Geo. A. Merrill, St. Johnsbury, Vt., Master of Transportation on railroad.

H. A. Quimby—Merchant, Lyndon Centre, Vt., and keeps the Powders for sale.

We, the undersigned, fully concur in the above recommendation of Miller's Condition Powders.

Teas, Coffees, Chocolates, Allspice, Pepper, Mustard, Ginger, Cayenne Pepper, Nutmegs, Cinnamon, Cloves, Cream Tartar, Paraticum or Prepared Dandelion, Root, &c.

Having every facility for manufacturing and preparing the several articles named, the public may rely on having them *pure* and *genuine*, as they are put up carefully, and bear our name and label, "TREMONT MILLS, E. E. DYER & CO." To give consumers some idea of our sales, we annex the following sales of prices, viz:

5lb. Boutchou Tea,	1,75	5lb. Mocha Coffee,	7,00
5lb. Oolong Tea,	2,00	5lb. Java Coffee,	7,00
5lb. Y. Hyson Tea,	2,00	5lb. good Coffee,	1,00

The Spices are put up in ¼ and ½ lb. tin cases, expressly for family use, and are warranted to be strictly a pure article, and only need a trial to establish them in public favor.

SPANISH COFFEE.—We would call the attention of consumers and dealers to our *Spanish Coffee*, as an article which is highly esteemed, and gives the greatest satisfaction. It is prepared with particular care, and by a peculiar process in roasting, one pound of this coffee, it is believed, is equal to 14 lbs. of any other.

DANDELION COFFEE.—This article is carefully prepared at our mills, and put up in packages having our trade mark and may be relied upon as the best and most approved mixture of dandelion and coffee.

TARAXACUM, or *Prepared Dandelion Root*. This article is prepared and roasted at our Mills, is retailed by Family Grocers generally in city and country, and bearing our trade mark, "*Chinaman grinding coffee*," may be relied upon as the *genuine article*. The proportion used is about one half the quantity of coffee. The price is 20 cents per pound, and it is warranted to be the same as that which has been sold for fifty cents a pound by druggists.

The medical properties of Dandelion are well known, and hold in high estimation by all who use it. This being a preparation of the root, with all its medicinal virtues retained, can be mixed with coffee or not, as best suits the taste, and will be found cheap and economical as a family beverage, one pound of which being nearly equal to two pounds of coffee. It is prescribed by many eminent physicians, to invalids, children and aged persons, as a nutritious beverage, and as a remedy for Dyspepsia, Bilious affections, &c.

Be careful to observe that all our Taraxacum has our trade mark—"Chinaman Grinding Coffee"—as there are many imitations of our article called Taraxacum in the market.

To Grocers and Dealers a liberal discount is made enabling them to supply their customers at the same low rates.

TO CASH PURCHASERS.—Our object being to secure large sales at small profits, we offer inducements which cannot be afforded by those who do business on the credit system, and we confidently invite an examination of the *quality* of our stock, and our prices, as compared with those of any other house.

The following remedies are offered to the public as the best, most perfect, which medical science can afford. AYER'S CATHARTIC PILLS have been prepared with the utmost skill which the medical profession of this age possesses, and that their effects they have virtues which surpass any other class of medicines hitherto known. Other cathartics do more or less good; but this cures such diseases as efficacy and a power to uproot them. Its virtues any thing which men have known before. Its stimulating them into healthy action, they will the fountains of life and vigor, —health flows anew through the body, and the sick man feels again. They are adapted to discover, and cure only, for when taken by one in health, they have but little effect. This is the perfection of a cathartic. It is antagonistic to disease, and no one can be injured. children may take them with impunity. If you are sick they will cure them, if they are well they will do them no harm.

Give them to some patient who has been confined with bilious complaint; see his countenance turning form straighten with a strength approaching long-lost appetite return; see his cheeks fresh blossom into health. Give them to some invalid whose foul blood has burst out in scrofula; see his skin is covered with sores; who stands or sits all in anguish. He has been dreaming in vain; cast out with every potion which human ingenuity could suggest. Give him these PILLS, and mark the effect; see the scabs fall from his body; see the healthy skin that has grown under them; see the blood that is clean. Give them to him when scrofulous humors have planted rheumatism in his joints; see bones; move him; and he screeches with pain; too has been soaked through every muscle of his body with liniments and salves; give him AYER'S PILLS to purify his blood; they may not cure him, for, alas! there are cases which no mortal power can reach; but mark, he walks with crutches now, and now he walks alone; they have cured him. Give them to the lean, sour, haggard dyspeptic whose gnawing stomach has long ago eaten every smile from his face and every musscle from his form. See his appetite return, and with it his health, see the new man. See her that was radiant with health and loveliness blasted and too early withering away; want of exercise or mental anguish, or some lurking disease, has deranged the internal organs of digestion, assimilation or secretion, till they do their office ill. Her blood is vitiated, her health is gone. Give her these PILLS to st
